Pearl River

GP 170 Grand Piano

The new GP 170 is one of the most popular-sized Parlor Grand Pianos in our lineup. Combining the tradition of the “Euro-method” with the popular “bell design,” the GP170 has a larger soundboard and longer bass wire which greatly enhances the overall tone. The result is a piano that delivers rich, warm tone and projection on a par with much larger pianos. Designed in the popular Sheraton tradition, the GP170 is a classic that blends stylishly with any home décor.

The Pearl River Piano Group Ltd. was established in 1956 and has rapidly grown to become one of the world’s leading piano manufacturers. Today with nearly 4,000 employees and over 3 million square feet of production space, Pearl River has the capacity to manufacture over 100,000 pianos per year.

Pearl River is proud to be the first piano factory in China to be awarded the ISO 9001 Certification for Quality Control Systems and was also recently awarded ISO 14001 for Environmental Management System Compliance.

Specifications:

Action:	<i>Traditional hornbeam construction</i>
Action Rail:	<i>Extruded aluminum</i>
